

Chris O'Hara joins CMR Surgical as new Commercial President & General Manager - US on 18th August 2025

CMR Surgical (CMR) headquartered in Cambridge, is a global medical devices company dedicated to transforming surgery with Versius, a next-generation surgical robot. CMR was recently granted FDA marketing authorisation in the US.

CMR is delighted to announce the appointment of **Chris O'Hara** in the new role of Commercial President & General Manager - US. Chris will lead the commercial strategy as a key member of the executive team, reporting to CEO, Massimiliano Colella.

Chris is an award winning global commercial leader with over 20 years' experience in the medical device industry. As Senior Vice President of Sales and Marketing at Virtual Incision, he led the commercial team in the US.

Chris has a proven track record in building commercial teams and is strategic, dynamic and results driven, coupled with experience across multiple organisations including Intuitive Surgical, Globus Medical & Cardiovascular Systems Inc. With this significant expertise in the US market, this will further strengthen the CMR Surgical team at what is an exciting time of growth.

Massimiliano Colella, Chief Executive Officer of CMR Surgical, said:

"I'm thrilled to welcome Chris as our new Commercial President & General Manager - US and have someone with his expertise lead our operations in the US. CMR has completed over 36,000 clinical procedures to-date and with such a strong demand for Versius, this is the perfect time for Chris to join us as we enter and grow the US market. He has an outstanding marketing and sales background and has worked for several large consumer and healthcare organisations".

Chris O'Hara, new President US of CMR Surgical, said:

"CMR Surgical is a hugely innovative business to be part of with an increasingly international presence. This is an exciting time to be joining the Company with a focus on growth in the US and building a customer base across the country".

About CMR Surgical

CMR Surgical (CMR) is a global medical devices company dedicated to transforming surgery with Versius, a next-generation surgical robot.

Headquartered in Cambridge, United Kingdom, CMR is committed to working with surgeons, surgical teams and hospital partners, to provide an optimal tool to make robotic minimal access surgery universally accessible and affordable. With Versius, we are on a mission to redefine the surgical robotics market with practical, innovative technology and data that can improve surgical care.

Founded in 2014, CMR Surgical is a private limited company backed by an international shareholder base.
